Top coat 40/00003

Did you know ...

... that in addition to the honey bee there are more than 20,000 species of wild bees around the world? They shimmer in a wide spectrum of colors. In addition to producing sweet honey, wild bees are imperative in the pollination of both wild and cultivated plants and trees. 40 percent of bees are on the endangered species list. Please help protect wild bees – without them we may soon join that list!
