

Enhance your décor with the ArchiPrint direct-to-object printing system. Say goodbye to lengthy setups and bulky inventories—TIGITAL® Inks are applied directly to pre-cut surfaces and instantly cured with UV light, ensuring a fast turnaround. Enjoy the flexibility of on-demand printing that saves both space and costs, while offering limitless design possibilities. Elevate your window frames and beyond with unparalleled creative freedom!

## Key Features & Benefits:

- Endless Possibilities: Whether you're designing facades, furniture, or other surfaces.
- Built to Last: Resist fading, ensuring your designs stay vibrant over time.
- Seamless Integration: our Inks work perfectly with our Archiprint powder coating technology for unmatched beauty and durability.
- Value-Added Solutions: Custom decorations enhance your projects, leading to satisfied customers.
- Environmental Responsibility: Formulated with eco-friendly principles, to support a greener future while you create stunning designs.

## How does it work?

Learn more about TIGITAL Inks:
