TRANSFORMATION

The Art of Renewal

Change is no accident. It is a fundamental law of life – a constant flow that permeates everything around us. Nature, technology, society: all are expressions of a dynamic force that leaves the old behind and brings forth the new. We call this force transformation.

But transformation is more than mere change. It is a creative act – a conscious decision for growth, for development, for renewal. It means making the hidden visible and shaping it into something stronger, more beautiful, more enduring.

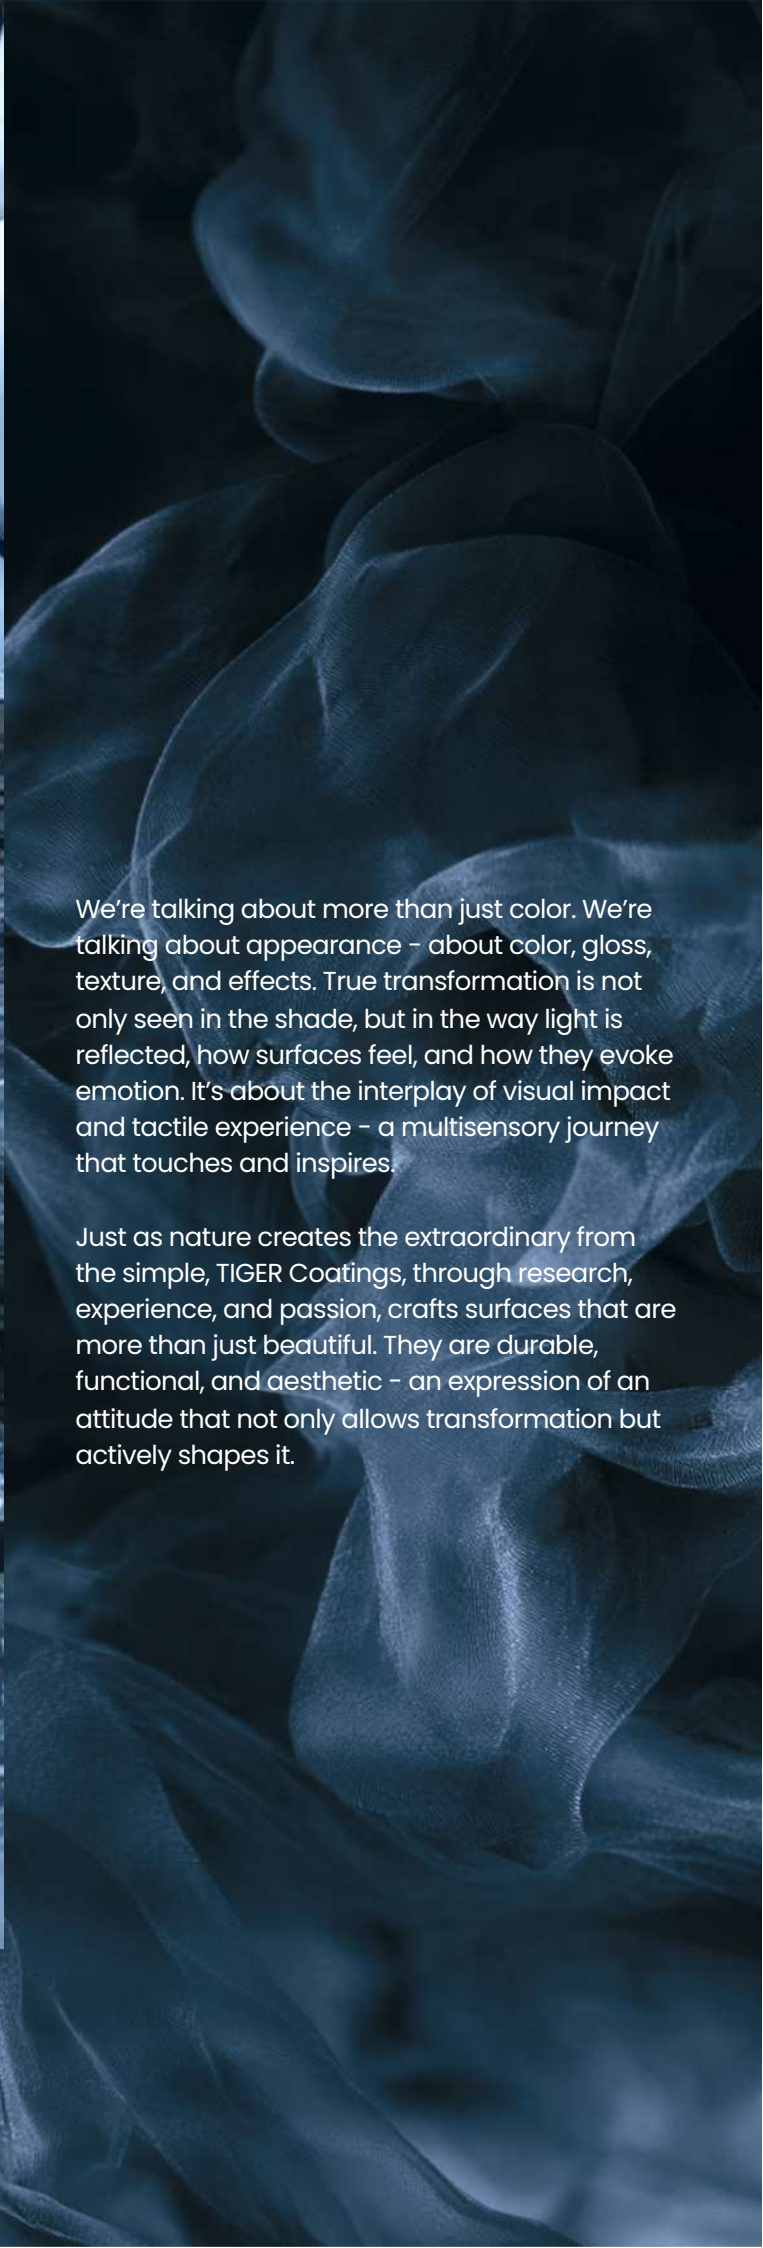

In the world of surfaces, powder coating is a perfect example of this philosophy. What may seem simple and understated at first glance reveals a fascinating depth upon closer inspection: protective robustness, expressive color worlds, captivating textures. Powder coating is not just a material – it is a medium of identity. It gives architecture, furniture, machinery, and vehicles character and presence.

We're talking about more than just color. We're talking about appearance - about color, gloss, texture, and effects. True transformation is not only seen in the shade, but in the way light is reflected, how surfaces feel, and how they evoke emotion. It's about the interplay of visual impact and tactile experience - a multisensory journey that touches and inspires.

Just as nature creates the extraordinary from the simple, TIGER Coatings, through research, experience, and passion, crafts surfaces that are more than just beautiful. They are durable, functional, and aesthetic - an expression of an attitude that not only allows transformation but actively shapes it.

BLUE FLOW

Water — The Transformative Element

Water is both the source and the shapeshifter. It flows clear and gentle, freezes hard and enduring, rises as invisible vapor into the air. It can shimmer turquoise in sunlight, rest dark and mysterious in the depths. It carries ships, quenches thirst, powers machines, shapes landscapes. Flexible and unstoppable, it always finds its way. Water is the symbol of adaptability, diversity, and vitality.

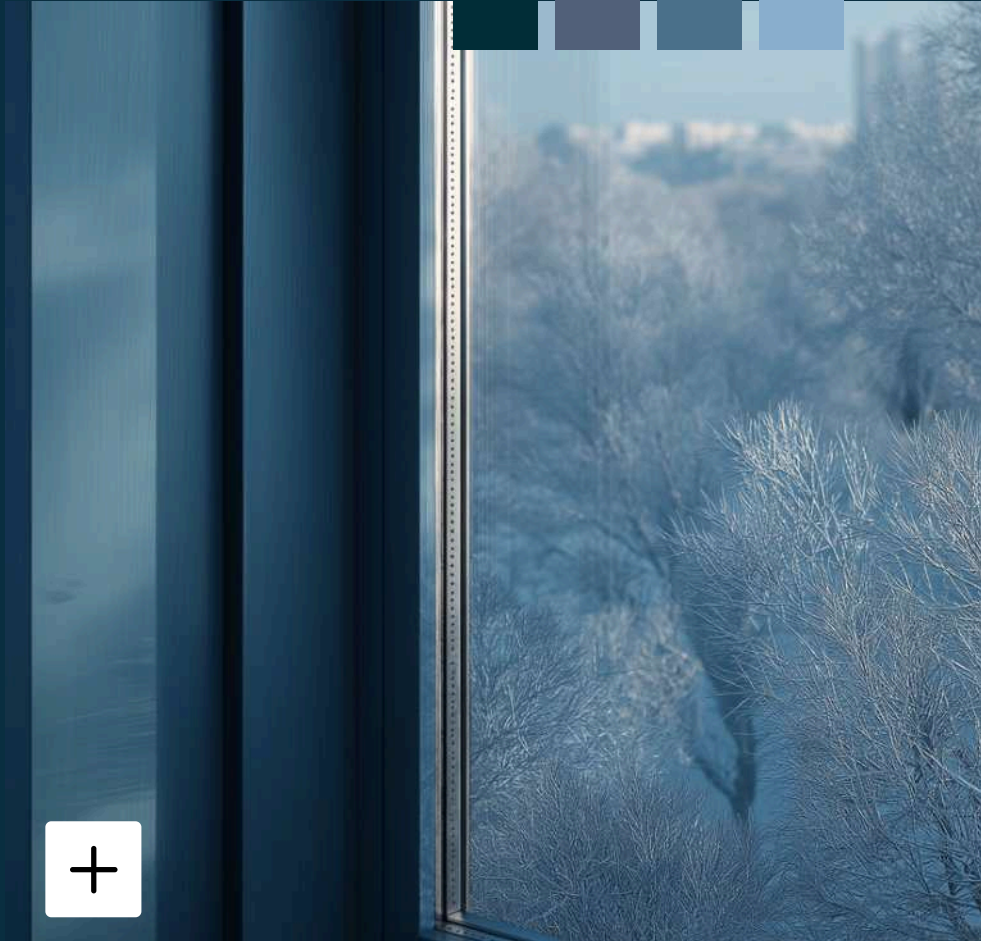

Blue Flow 29/44641

BLUE FLOW

Water — The Transformative Element

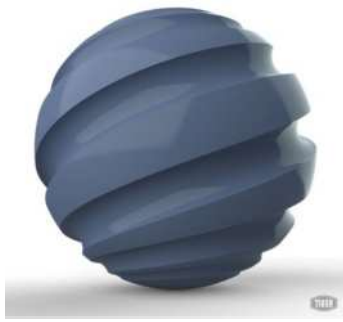

Color of calm, clarity, and focus

The color blue stands for harmony, peace, and trust. It conveys serenity and stability, creates clarity, and fosters concentration. Blue is like water: calming and powerful at the same time, a symbol of reliability and endurance -qualities that also define our powder coatings.

Blue Flow

Just as water shapes life, Blue Flow gives surfaces calm, clarity, and trust.

BLUE FLOW

Water – The Transformative Element

The Versatility of our Powder Coatings

These qualities are reflected in TIGER Drylac® powder coatings. In architecture, the spectrum ranges from velvety matte mineral colors to iridescent metallic effects that play with light and give spaces depth. In interior design, surfaces are created that are robust yet sensually tangible – harmonious and elegant. In industry, they reliably protect against moisture, chemicals, and abrasion. Vehicles and agricultural machinery retain their color and appearance even under extreme conditions.

ORIGIN BLOOM

From Seed to Blossom —
Unfolding Possibilities

A seed appears small, inconspicuous, almost lifeless. Yet within it lies a complete blueprint for color, shape, and fragrance. With soil, water, light, and time, it grows a stem, develops leaves, buds, and finally a blossom. Step by step, its full potential is revealed - until diversity and vibrancy are on full display.

Origin Bloom 18/43967

ORIGIN BLOOM

From Seed to Blossom —
Unfolding Possibilities

Color of energy, passion, and transformation

Magenta stands for strength and dynamism, for confidence and individuality. It embodies the courage to change and is itself a symbol of transformation. Like the blossom that unfolds from the seed, magenta brings movement and expression to every surface - a statement of strength and personality.

Origin Bloom

Every application shows:
potential becomes
expression - restraint
becomes brilliance.

ORIGIN BLOOM

From Seed To Blossom —
Unfolding Possibilities

Just as the seed becomes a blossom, TIGER Drylac® Powder Coatings unfold.

Heating and cooling systems combine functionality with stylish surfaces. Furniture and interior design elements receive high-quality, intensely colored coatings that transform spaces into emotional experiences. In retail design, textured surfaces create striking accents, while household appliances impress with lasting quality and elegant looks. And in sports? Bicycles, fitness equipment, and sports gear become true design statements. Our powder coatings provide not only durability and protection but also infuse every movement with energy and individuality —from the gym to the great outdoors.

MYSTIC FOREST

The Fern Leaf — Precise Unfolding

A fern leaf unfurls in a spiral, evenly, in perfect order. Every movement follows a plan until the form is fully revealed. Not a layer too many, not a layer too few - the result is harmony from logic and elegance, a symbol of precision and balance.

Mystic Forest 18/57826

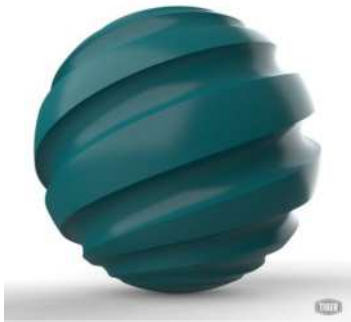

MYSTIC FOREST

The Fern Leaf — Precise Unfolding

Color of calm, growth, and nature

The deep dark green of Mystic Forest stands for tranquility and balance. It conveys stability and composure, while also symbolizing growth, nature, and harmony. These qualities make Mystic Forest a color that not only soothes but also radiates strength and durability – perfect for surfaces that combine function and aesthetics.

Mystic Forest

... channels the calm strength of nature, expressing harmony, durability, and refined functionality in every surface.

MYSTIC FOREST

The Fern Leaf — Precise Unfolding

In the same way, TIGER Drylac® Powder Coatings unfold.

Radiators receive a surface that withstands heat while exuding elegance. Bicycles and sports equipment combine dynamic design with resilience and flexibility. Agricultural machinery gets a protective layer that stands up to extreme conditions—from mud and rain to UV rays and chemicals. Fittings and slides unite functionality and high quality. Step by step, layer by layer, a surface emerges that combines technical precision and visual perfection—making the power of nature visible in Mystic Forest.

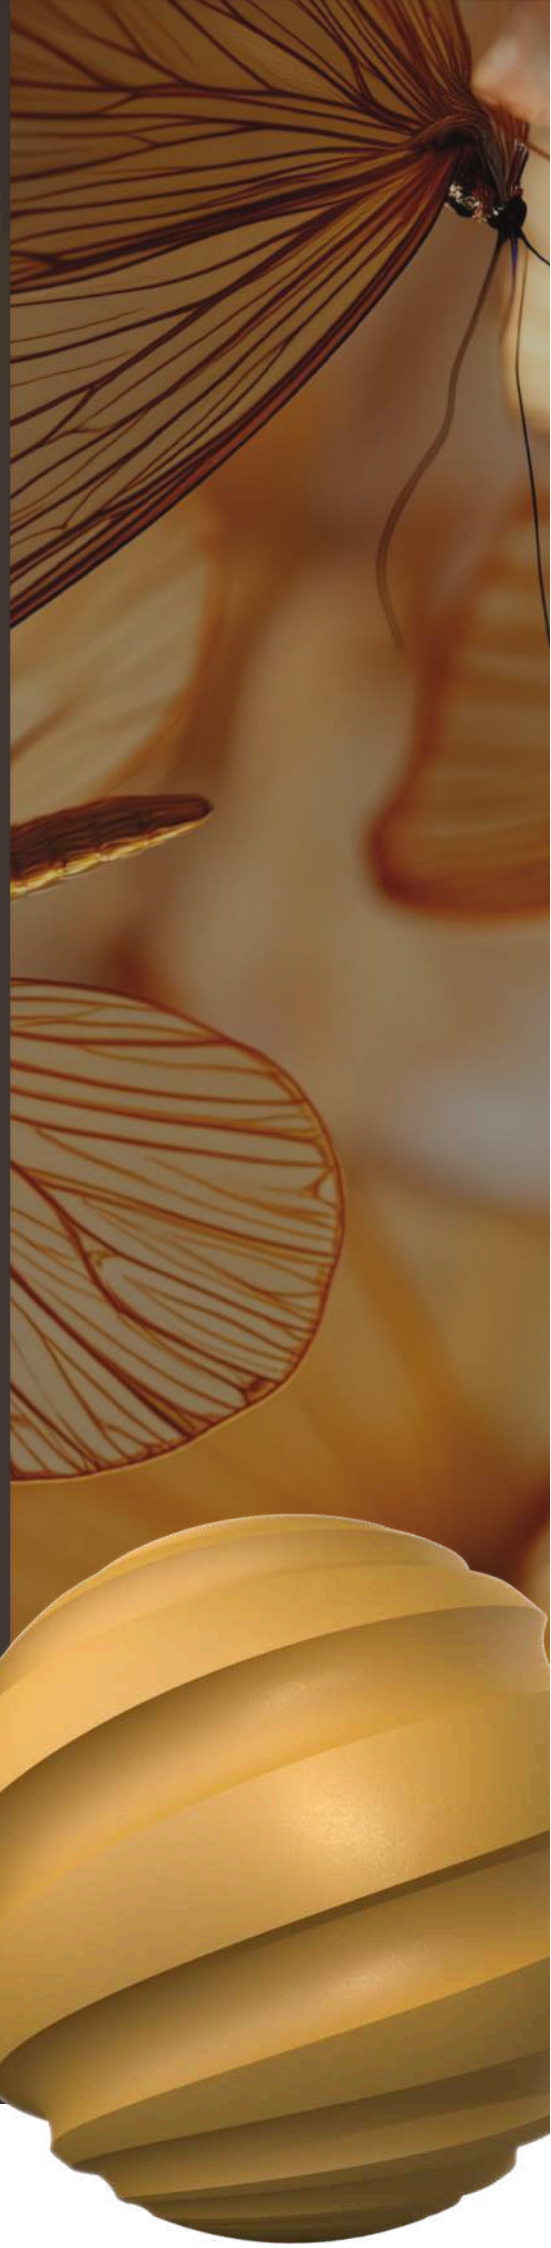

AURUM ASCENDIC

Metamorphosis — from
Caterpillar to Butterfly

Nature shows us how powerful change can be. From a humble caterpillar emerges a butterfly – a creature of incomparable beauty. With delicate wings in radiant colors, it rises, light yet strong, precise and full of grace. This metamorphosis is the ultimate symbol of renewal.

Aurum Ascendic 67/20038

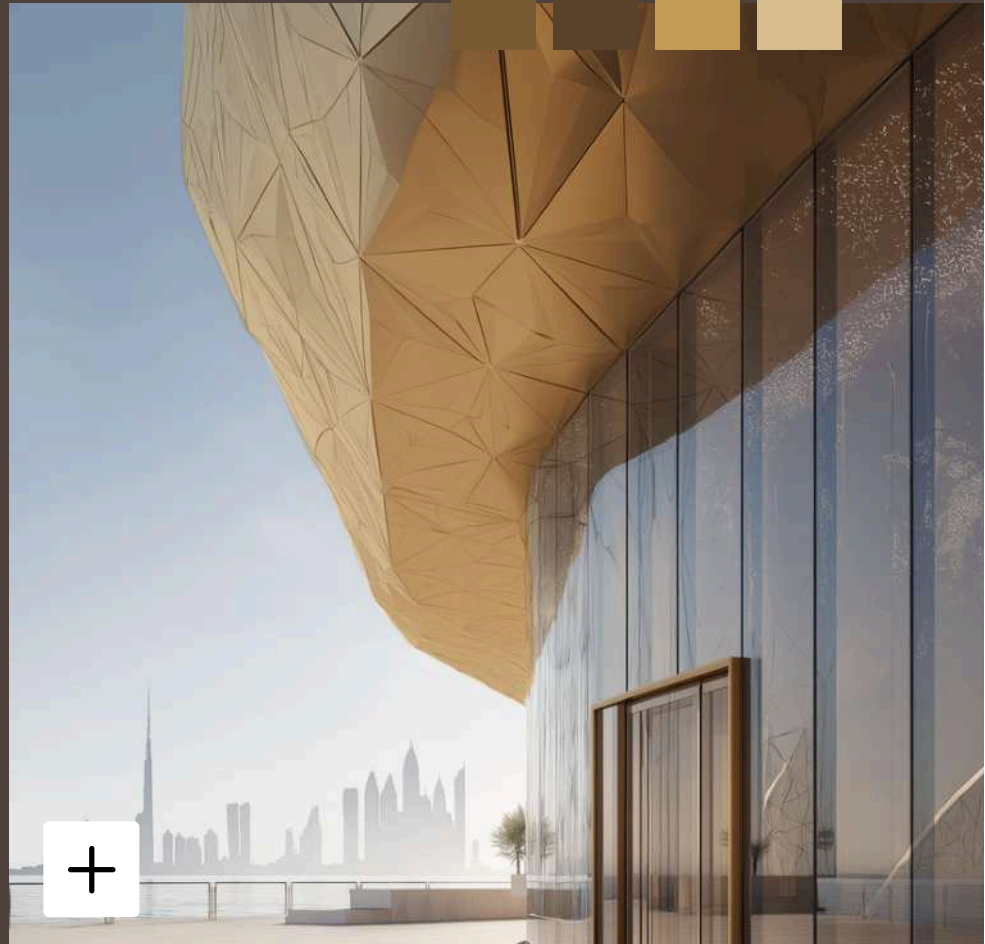

AURUM ASCENDIC

Metamorphosis — from Caterpillar to Butterfly

Symbolizing strength, confidence, optimism, and success

Gold embodies all these qualities and perfectly matches the butterfly's transformation: from restraint comes brilliance, from potential comes reality. Gold stands for value and permanence - attributes that also define our powder coatings.

Aurum Ascendic

... stands for the power of transformation - and for surfaces that radiate strength and beauty in gold.

AURUM ASCENDIC

Metamorphosis — from Caterpillar to Butterfly

The Transformation of our Powder Coatings

What begins as a fine powder is transformed through technology and expertise into a surface with expressive power. TIGER Drylac® powder coatings give architectural projects depth, gloss, and durability – facades become bold statements. Furniture and interior design elements receive a refined, resilient surface that unites aesthetics and function. Every application shows: from an idea emerges a design object with a unique identity.

PEARL ESSENCE

From Grain of Sand to Pearl –
Refinement Over Time

A grain of sand, unremarkable and rough, finds its way into the heart of an oyster. There, nature coats it layer by layer, year after year – until it becomes a pearl: lustrous, deep, and unique. Its shimmer is never the same, always one of a kind. Its beauty is the result of endurance and patience – a process of refinement.

Pearl Essence 68/10899

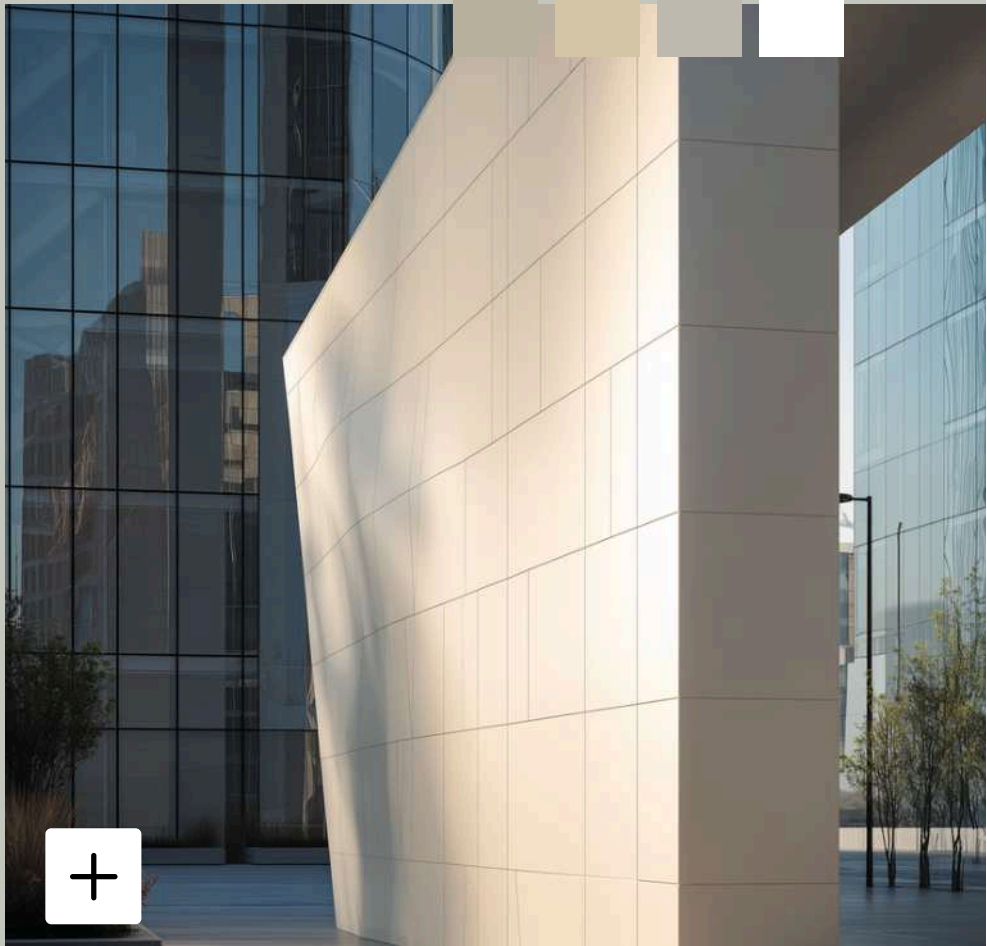

PEARL ESSENCE

From Grain of Sand to Pearl –
Refinement Over Time

Symbol of elegance, purity, and transformation

Pearl luster stands for timeless elegance and pure clarity. It gives surfaces softness and harmony, creating a subtle, luxurious aura. The pearl's shine is itself a symbol of transformation – its creation requires time, patience, and precision. These are the same values reflected in our powder coatings.

Pearl Essence

Every coating is like a pearl - individual, precious, and enduringly beautiful.

PEARL ESSENCE

From Grain of Sand to Pearl –
Refinement Over Time

TIGER Drylac® Powder Coatings follow the same principle.

Architectural facades become radiant highlights in the cityscape through metallic and pearl effects, giving buildings a distinctive presence. In interior design, gentle pearl surfaces on walls, doors, and decorative elements create an atmosphere of elegance and harmony. Furniture benefits from tactile textures and the subtle shine of pearls, lending individuality and value – from exclusive living spaces to high-end contract furniture. Industrial applications also impress with robust surfaces that resist corrosion, chemicals, and wear, while exuding durability and style.

QUANTUM SILVER

Society in Transition – Digitalization

Digitalization is profoundly changing our lives. What was once cumbersome and confusing is now made manageable and controllable through data, networking, and precision. Ideas turn into concrete concepts more quickly, concepts into reliable products, products into reproducible series. Digitalization stands for speed, clarity, and progress – for a society reinventing itself.

Quantum Silver 68/73167

QUANTUM SILVER

Society in Transition – Digitalization

Color of clarity, reflection, and protection

Silver embodies not only elegance but also clarity and reflection – qualities that are indispensable in a digital world. It stands for wisdom and protection, for orientation in complex processes, and for the ability to shape change with confidence. Like digital transformation itself, silver is a symbol of precision and future-readiness.

Quantum Silver

... embodies clarity, precision, and transformation –reflecting how digitalization reshapes society with speed, insight, and future-ready confidence.

QUANTUM SILVER

Society in Transition – Digitalization

TIGER Drylac® is part of this evolution

Digital color worlds open up limitless visualization possibilities for architects, designers, and planners – whether for large-scale facade projects, furniture and interior design elements, components for rail, bus, and industry, or IT and electronics applications that demand the highest standards of protection and design. Quantum Silver thus becomes the answer to the demands of a modern, digitalized world: innovative, protective, forward-thinking – with a shine that makes clarity and transformation visible.

Product Overview

TIGER Trend Colors & Finishes 2026

Learn more about our TIGER Digital Finishes.

They provide highly realistic digital surface visualizations – capturing color, gloss, effect, and texture – through finish files generated from real scans. With a single click, designers can virtually “powder coat” rendered objects for accurate material previews.

More than 1,500 finishes are available free of charge in .axf, .kmp, and .exr formats, compatible with leading CGI and rendering platforms including KeyShot, Autodesk, Unreal Engine, and many others. While digital accuracy is high, TIGER recommends verifying critical projects with an original powder-coated sample.

All finishes, technical data sheets, and additional digital services can be accessed 24/7 via the TIGER Webshop.
